INTRODUCTION

Water Engineering Africa (PTY) LTD (WEA), is a wholly Namibian owned civil, mechanical and electrical engineering company that was found in June 2009 as a close corporation and was subsequently converted into a private company in June 2015.

WEA specializes in the construction of water, sewer reticulations and concrete structures; designing, construction, installation and maintenance of sewer pump stations and sewage ponds; construction of storm water drainage; rehabilitation and installation of borehole systems and pumps; construction of buildings.

WEA is also a leading supplier of various types of pipes, fittings, valves, solar and diesel driven pumps, manhole covers and other water related accessories. Over the past ten years of dedicated service to our esteemed clients, we have established ourselves as one of the leading civil engineering companies, through offering superior services to our esteemed clients, amongst others Regional and Local Authorities, Government Ministries, NAMWATER and many other private clients.

Our Vision

To be the preferred municipal and agricultural one stop shop in Namibia and beyond.

Our Mission

We provide the much-needed expert advices and services to our esteemed customers in order to harness the infrastructural development of municipal and agricultural sectors in Namibia.

Industry experience and Field expertise

Over the years of WEA's existence, the company has managed to attract the necessary expertise that has enabled it to successfully engage in bigger and challenging civil, mechanical and electrical engineering projects across the country. WEA's exceptional, functional and technical expertise coupled with extensive industry knowledge and experience makes WEA the ideal choice to manage the implementation of any project within WEA's area of expertise.

WEA's management team is equipped with the necessary project management skills which has enabled the company to effectively administer the implementation of multiple projects simultaneously. This has resulted in the company meeting the requirements of different clients within their respective budgets and time schedules.

Innovative Solutions

WEA brings a fresh and innovative approach to water engineering services in Namibia and beyond by providing complete civil, mechanical and electrical engineering solutions. As experts in the field of water systems and distribution, we are involved in every stage from design phase down to commissioning and handing over. WEA further offers after service and care to its clients which may include service and maintenance of infrastructures.

Naturally, WEA staff are dispensed on different localities in order to handle client queries and provide functional and technical support.

Our Commitment

WEA is committed to provide high standard of workmanship to its esteemed clients through the best available technologies at its disposal.

WEA's collaborative approach and commitment to thoroughly understand its clients' needs has ensured consistent market share growth.

Human Capacity

WEA has a staff compliment of 45 permanent employees and around 60 temporary workers at any given time. The company employs mainly locally based skilled and experienced workforce and has a training and development programme in liaison with local educational and training institutions such as VTCs and UNAM, with the aim of supporting reciprocal investment in the local economy.

WEA projects are therefore adequately resourced with the right team providing, an enjoyable experience for all our stakeholders. This promotes strong work ethics and encourages staff to work and grow within the company.

WEA Leader & Founder

Mr Tangeni Shihafeleni Nghiwewelekwa is the founder of **Water Engineering Africa**. He commands more than 20 years of wide technical and practical experience in Mechanical, Electrical and Structural engineering. Prior to the establishment of WEA, Tangeni has worked his way through the ranks of Oshakati Town Council's Engineering Department where he was finally in charge of the Wet Services Division.

He also worked for engineering firm ELWIVA as a Project Manager, where he was very influential in the establishment of ELWIVA Northern branch. He was responsible for the design and construction of various projects as well as marketing.

Tangeni was trained at Chemie AG in Halle, Germany as Rohrleitungsbau before completing his studies at Valomba Vocational Training Centre in Ongwediva, in 1998.

WEA PROJECTS HIGHLIGHTS

Project Name: Design, Supply and Install 3x Solar Water Pumps at Dax Break at Outjo
Client: Mr Iyambo Iyambo
Year Awarded 11/2009 **Year Completed** 12/2009

Project Name: Design, Supply and Install Submersible Pumps at Ekamba Pigs Farm
Client: Mr Evard Kandongo
Year Awarded 01/2010 **Year Completed** 02/2010

Project Name: Manufacture and Install 400 Water Meter Cages
Client: Namibia Water Corporation LTD
Year Awarded 05/2010 **Year Completed** 09/2010

Project Name: Manufacture, Supply and Delivery of Hot Dipped Galvanized Fittings.
Client: Namibia Water Corporation LTD
Year Awarded 05/2010 **Year Completed** 09/2010

Project Name: Construction of Municipal Services at Omashaka
Client: Ondangwa Town Council
Year Awarded 01/2011 **Year Completed** 02/2012

Project Name: Supply, Delivery and Erect of 90.792 m³ Water Tower at Oshikuku
Client: Oshikuku Town Council
Year Awarded 06/2011 **Year Completed** 12/2011

Project Name: Development of services infrastructure at Ogongo
Client: Omusati Regional Council
Year Awarded 10/2011 **Year Completed** 03/2012

Project Name: Supply, Delivery, installation, Testing and commissioning of Mechanical & Electrical components for Engela Pump Station
Client: Helao Nafidi Town Council
Year Awarded 02/2012
Year Completed 01/2013

Project Name: Construction of Sewer Reticulation at ERF 384
Client: Okahao Town Council
Year Awarded 04/2012
Year Completed 10/2012

Project Name: Construction of Rural Feederlines and Water Points for the Onambutu Water Supply Scheme - Phase 6
Client: Ministry of Agriculture, Water & Forestry
Year Awarded 02/2013
Year Completed 10/2014

Project Name: Construction of Bulk Water Services at Ehenye
Client: Oshakati Town Council
Year Awarded 01/2014
Year Completed 10/2014
